Alberta Welcomes Their Majesties

THEIR MAJESTIES KING GEORGE VI AND THE QUEEN CONSORT, WITH PRINCES EDWARD AND MARGARET, WERE GREETED BY CANADIAN PHOTOGRAPHERS AND OLD-MODEL CAMERAS.

"Would the Princess Margaret like this camera?"

"No, I don't think I'm smiling much (tells that time) would you like to try that one over there?"

"I think this is better, but don't check for a minute and I'll try and find just the right smile."

"There, that's better, I'm sure. I was smiling when the Queen and the Princess. Yet there was little posing—this gracious Royal Family were simply themselves."

Although the traditional state of Europe and last minute preparations for the visit to North America crowded upon him, the King found time to pose for this and other pictures with the Queen and the Princess. Yet there was little posing—this gracious Royal Family were simply themselves.

Intimate Pictures Of Royal Family

Mr. Halton's comment on chatting with the Queen, said "She is a lovely woman, charming and intelligent. Her eyes are sparkling blue, her complexion is fresh, her voice is soft and warm, and a wee bit Scottish, and she talked to me as if we were friends. 'No did the King'."

First Picture Of Arrival In Canada

The King made history as he put foot on Canadian soil, the first British Monarch to visit the North American continent. The King came down the flag-draped gangplank to the left drive uniform of an Admiral of the Fleet. With him was his Queen, a gracious smiling lady in simple pearl grey ensemble, with a long fur hat. The first person to meet them, beaming Canada's official greeting, was Prime Minister Mackenzie King (right).

The gracious smile of the Queen, as the Royal Family walked by, took all the crowd's breath away. Windsor has been the home of British sovereigns since the days of William the Conqueror. I really do believe the citizens in this historic castle on the Thames for London during the West coast meeting.

Favorite Dogs Included

"We passed our heads against the great white castle whose stones are mortared with history," wrote Mr. Halton, when this picture was taken at history Windsor Castle. At the foot of the Royal Family here are two of their favorite dogs, behind them the yellow walls of an English spring.

M.D. Crown Will Not Sign Up Under New Provincial Public Works Program

Minneapolis Director of Labour will not co-operate with the Provincial Government in their recently announced plan to set up a provincial public works scheme which will involve the expenditure of \$400,000 on public works. MINISTERS have been advised by The Manitoba Labour Union.

...which suggest, following public advice in an attempt to reduce the impact of the inauguration of this scheme. Under the present law, farmers' dollars with a value of 10 cents will be required to pay for various distinct needs, two dollars will be credited. In the interim, the balance of the two dollars will be paid to the farmer in cash. This scheme is not a new one, but the place of the person in the government and to make questions which has been given in the past.

It is understood that at a meeting of the Central Alberta Municipal District Association this plan has been discussed and the municipal authorities demand that the municipality in effect be the farmer's ally. The latter has been the case in the past.

Through the Eyes of a Country Woman
By DOROTHY
A happy Christmas to all my readers that have followed me through the eyes of a country woman. There is a great deal of joy in the holiday season, and it is a joy that is shared by all. I hope that this story will give you a glimpse into the life of a country woman and the joys and sorrows of the holiday season.

A Modern Fairy Story
Light in Dark Places
A Fairy Story for Dark Places
By DOROTHY
This story is a modern fairy tale, set in a world of light and shadow. It is a story of hope and faith, and of the power of love to overcome all obstacles. I hope that it will bring a smile to your face and a sense of peace to your heart.

Letters to The Editor
Apprenticeship
I have read with interest the article on apprenticeship in the Lacombe Globe. It is a very important subject, and one that needs to be discussed more fully. I hope that the authorities will take notice of the views expressed in this article and will take steps to improve the apprenticeship system.

1. The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as $t \rightarrow \infty$. It is shown that the solutions of the system (1) are bounded and tend to zero as $t \rightarrow \infty$ if the matrix A is stable. HELPING THE TOURIST
Helps
CANADA

A black and white illustration of a tourist car, possibly a Volkswagen Beetle, with several people inside and around it. The car is positioned in the lower right. To the left of the car is a small, stylized house with a chimney, surrounded by trees. The background is filled with more stylized trees and foliage. The overall style is reminiscent of mid-20th-century graphic design.

EVERY year well over 10,000,000 tourists visit Canada from the United States. They spend some \$250,000,000 in the Dominion. If Canada's

tourist trade has become one of the most important sources of the country's national income. Under stress of war, American tourist dollars are vital in providing needed exchange. ¶ Canada's Chartered Banks materially

assist in promoting this valuable trade. Over 3,000 branch offices provide the tourist with familiar banking services throughout the Dominion—often in the most remote areas. At any of these branches travellers'

cheques are cashed, drawings under letters of credit negotiated, money exchanged, tourist information gladly furnished by managers and staff.

C By friendly, courteous treatment and efficient service. Canada's

Chartered Banks add to the warmth of welcome and encourage the stranger within our gates to return another year.

is one, as to peace, Canada's Chartered Bank maintains, unimpaired, all their services to depositors, farmers, manufacturers, exporters—facilitating the nation's business—leading forward to peace with freedom as the only sure basis for enduring prosperity.

Give Interest Free Loan to

Resolution Decides Surplus to Be Used in That Manner; R. E. Chevon Re-Elected President; Annual Reports Show Success

Members of the Blindman Valley Co-Operative Association Ltd. unanimously agreed to present the sum of \$1000 to the Dominion Government as an interest-free loan for the duration of the war, as

its sixteenth annual meeting in Nashville Saturday. This annual represents the 10-1/2 surplus earnings of the association for the past year. R. B. Chown, president, had the honor before the gathering explaining that if the profits were distributed to the shareholders, earnings would amount to but three cents per hog sold. It was presented to the meeting in the form of a motion, and carried unanimously. R. B. Chown of Bentley, who has served as president continuously during the past 17 years, was again re-elected to head the organization. F. A. _____

of the Lacombe Livestock Agency of Winnipeg, delivered a splendid address, stressing the difference and the respective advantages between rail and live grading. He stated that while rail grading was a better way of grading pork, it was not the best way of marketing or selling hogs. Mr. McPhail said there is

strong movement in certain quarters to make rail grading compulsory, in which case all the way of price regulations would be left to the packers. Mr. Pfund did not think rail grading a safe way of selling, unless the selling were done through such an organization as the Blindman Valley Association.

Special For Packers
Frank Baker, western representative of packers of Winnipeg, made a short speech in defense of the Canadian packers. Showing how a fluctuation of prices had resulted because of the pork surplus produced over and above the amount contracted for export to England, Mr. Baker said that

oil grating had been mentioned within the past few years in an effort to show the producers where they were falling down.

acombe Fair

That the madcap landed this year for the Luccombe Fair, to be held on Monday and Tuesday, July 29 and 30, is one of the best-documented, is seen from the following write-up which appeared

in the Victoria (Advertiser) May 23 last. The *Ernest Shown*, which will occupy the midway here, carries a division of amusement for young and old, and are favorably known for class entertainment. Civic officials in Victoria checked into the shanties thoroughly and the following write-up in the *Colonist* daily newspaper,

**Lacombe Flower Gardens
Present Many Fine Displays**

Despite Heat and Winds

Several New Gardens Are Cultivated This Summer; Hospital Grounds and Memorial Park Have Fine Displays

For the past two weeks Laramie's flower gardens have been harassed alternately by winds which have at times rendered the proportions of small plants, and the sun which has laid down on them scorching rays for days at a time. Yet with all these adverse conditions, the gardens are in excellent shape and are ready for the public.

The high winds, here played particularly well with gladioli and other long stemmed plants, while the most has had a withering effect on many of the smaller plants. Indeed, the temperature has been so high that the plants have been scorched in places. The gardens at Memorial Park, the grounds at St. Lawrence Hospital, the new gardens on West Hamilton avenue and several others, Laramie, at this time are in excellent shape.

Al Price is laying the foundation for another grand garden at his new home on Alvir Street between 10th and 11th streets. He has healthy flowers and sweet peas on view and they certainly make a beautiful decoration.

Survey Show Only Small Number of Lacombe School Children Have Simple Goitre

Attribute Good Average to Isoline Content of Local Water

Infected children in the town of Lawrence and in a large portion of the surrounding territory have a splendid health record which is accounting for the fact that the water supply is so good. One of the exceptions is at Fall Lake, where five of the 12 per cent examined by Health Officers doctors and nurses were afflicted with the disease.

The reason for this, the local water supply is so good.

Lacrosse Unit of Fuelers Takes Route March

The Larum ploton of the Edmonton Fusiliers, under command of Lieut. John MacDonald, went for a man-made range search recently which included field manoeuvres and a lunch to the open. The ploton assembled at the Church Hall at 50 c'clock on

During the maneuvers the militia members had worked their way to a point two miles north of the Canadian Junior College, where they had lunch in the open. After further routine work, the soldiers marched back to the

Announces No Increase in Adult Prices

In spite of the new amusement tax the Las Vegas Hotel has announced that adult admission prices will not be raised. "The old admission prices for adults will prevail as long as we get response from the public," stated Manager H. E. Stevenson in the *Globe* on Wednesday.

Mr. Stevenson also stated that it was found necessary to increase the price of admissions to

students and children, to help absorb the increased tax, the old prices were very low. The usual margin Saturday costume prices will prevail in the case of adults, with a slight increase for students and children.

Cite A Cattle Proven Big Attraction; Softball Attracts Large Crowds and Race Program Is Popular

Patented by excellent weather and attractor to the large program which had been advertised, some 4,000 persons gathered on the porch at the Lancaster Fair held Wednesday and Thursday to view the best exhibition ever in the district in many years. Sponsored by the Lancaster County Fair Association, the event was opened by Mayor J. H. B. Smith, followed by the band and the official opening by Hon. E. M. Harbison, Provincial Minister of Agriculture, on Wednesday afternoon still more interest on the midway shortly after midnight on Thursday evening.

Fosterer of the Fair, Mr. J. H. B. Smith, said that the fair was the largest he had ever seen at the Fair from Calgary, and was a drawing card from the town the Fair opened until the streets all were full of people.

The softball tournament on Wednesday was the highlight of the first day's events and a happy crowd was on hand to watch the play. It was quite late the final game from afternoon after the first game was played.

In the Domestic Service section, the attendance during the two-day Fair was a record to the work of the members and the splendid displays of cooking and fancy work which took place on these two days. The members of the Domestic Service section were very busy and the members of the outside members, where modern needlework was neatly arranged and demonstrated by the members.

In the middle, pink bouquets and garlands of every kind were offered to the big crowd and the delicious and appetizing dishes of Couscous (couscous) dishes played a big role in the Fair. The members of the Domestic Service section were very busy and the members of the outside members, where modern needlework was neatly arranged and demonstrated by the members.

Everything taken into consideration, the Fair was very successful and provided a grand finale to weeks of work by a team members. Members of the board had supported the Fair in the District, providing the dining point which "put the Fair over".

into volume production*

18-3

As the War Effort gathered momentum a sizeable expansion of the Explosive and Allied Chemical Industry in Canada became imperative. Part of this expansion in the Alberta Nitrogen plant served by this Company.

To meet efficiently military capacity production electricity was increased to the job. The requirements were so great that the Canadian Government became an essential War-time necessity.

ARRIVE**

Four members of the unit who later joined the R.C.A.P. have already been granted commissions and many others are taking advanced courses with the flying force.

CANADIAN HUSKEY CROP
The preliminary estimates of the 1941 huskey crop in Canada shows a total production of 24,000,000 bushels, an increase of 10 per cent on the "short" crop of 1940. It is approximately equal to the average huskey production of the past ten years. About 17 per cent of the huskey crop has been marketed at prices averaging slightly less than one cent higher than in 1940.
